Senator Casey,

I am writing to urge you to oppose S. 968, the PROTECT IP Act. This bill would have many far-reaching and unintended negative consequences such as the stifling of innovation and the erosion of classically American ideals such as the freedom of speech. Furthermore, the imprecise and superficial language of this bill demonstrates a clear lack of technical understanding of how the Internet functions, rendering any attempt to regulate illegal activity misguided at best.

Please join Senator Wyden and other members of Congress in opposing this dangerous bill.

Sincerely yours,

Brad Sukala
